Stinson Lake Association

March 2026

Spring is here, or is it really?

RUMNEY CLEAN-UP DAY

Dear Stinson Lake Association Members,

As a Board Member of the Rumney Conservation Commission here in town, I wanted to let you know that we are planning a town-wide street clean-up day on Saturday, April 25 from 8am-12-pm.

Depending on the number of volunteers, we plan to collect trash on Stinson Lake Road, Cross Road and Doetown Road among other roads in town. We will not be working on Route 25 nor Route 118, but we will be including the town owned Rest Area on Route 25.

The following day, Sunday April 26 at 9:30am, we are sponsoring another clean up at the Jim Darling Natural Area on Route 25. We'll continue our efforts to control some of the invasive plants there, such as Japanese knotweed, Japanese barberry, and garlic mustard.

If anyone has questions or wishes to volunteer, I can be contacted by cell/text (860-693-4277) or email (almostheaven2300@gmail.com).

Thank you all for your consideration!
Lynne Alexander

LAKE HOST PROGRAM

Need a summer gig? Know a student who needs a summer job? We need Lake Hosts to help us keep Stinson Lake free of invasive species. Lake Hosts are paid \$15 an hour and we are very flexible in working with schedules. For more information, reach out to Janine Mori, Lake Host Coordinator.

MUD SEASON

Mud season is not just messy; it can impact the health of the lake. With the spring melt and rain, muddy runoff water can carry sediment, nutrients like phosphorus, and other pollutants into the lake. The runoff can cloud the water, harm aquatic habitats, and fuel unwanted algae growth. Check out this article outlining actions you can take on your property that can make a big difference.

TIME TO TAKE DOWN BIRD FEEDERS

Bears have been seen out and about in many parts of NH, and they are HUNGRY. NH Fish & Game advises residents to take down bird feeders by April 1st. Along with taking down feeders, secure trash, and pick up any potential food sources to avoid any unnecessary human-bear conflicts.

SPRING: A TIME OF RENEWAL

What better way to renew your lake spirit and energy then to renew your membership to the Stinson Lake Association. We have made it easier in 2026 to sign up for membership. Please continue your commitment to protecting the health of the lake by going to our website today and signing up for your yearly membership. Also please consider making an additional donation to support the association efforts.
